

Productivity Study

Optimize Staffing & Strengthen Performance

Balancing staffing levels with patient demand – while protecting your hospital's financial health – is a constant challenge in today's rural healthcare environment.

Our productivity study leverages comparative data and historical performance to uncover actionable insights, establish meaningful benchmarks, and equip your team with the tools to **achieve sustainable staffing and enhanced productivity.**

Key Benefits:

- Set Clear Goals:** Define productivity benchmarks aligned with your facility's objectives.
- Optimize Staffing:** Identify precise FTE needs to meet projected volumes – *without overstaffing.*
- Empower Departments:** Equip teams with tools & data to measure & improve performance.
- Drive Savings:** Uncover cost-saving opportunities through validated staffing targets.

Deliverables:

- Customized Comparison Group:** A peer group of CAHs matched by size, scope of services, geographic location, quality, financial performance, & other key criteria.
- Opportunity Savings Report:** Identifies cost-saving opportunities based on validated staffing targets.
- Department-Level Benchmarks:** Baselines and targets to guide labor management decisions.
- Comprehensive Assessment Report:** Detailed findings, insights, & actionable recommendations.
- Turnkey Productivity Tracking Tool:** A user-friendly tool to track FTEs & monthly productivity across departments.
- Tailored Education & Guidance:** Training & support to help your team effectively implement findings & recommendations.

Your Success Our Mission:

Our team is made up of professionals who've worked in rural healthcare facilities just like yours. We understand the pressures you face, and that insight shapes everything we do.

Together, we'll help you optimize staffing, boost productivity, and move your mission forward—**because your success is ours too.**
