

Virtual Patient Rooms

Connecting you with your patients

As your partner, ruralMED can assist you with your comprehensive telehealth strategy regarding your COVID-19 response with our easy to use platform.

Protect your providers and staff with Virtual Patient Rooms

We can quickly build virtual patient rooms for your patients using **YOUR** providers.

- Reduce potential exposure to your patients.
- Reduce potential exposure to your providers and staff.
- Improve access to care.
- Reduce unnecessary visits to your clinics or emergency department.

Several acute care support options are available as well.
